- Brick ~ FOH ~ Various "One off" dates across the Southeast ~ '06/'07
- Sleepy Brown ~ MON Various "One off" dates ~ '06/'07

Core Values:

- **"The show must go on!"** Works as a team member in cooperation, sometimes outside of primary responsibilities, to ensure that artist and crew alike have the best show possible.
- **"You're not here for me, I'm here for you!"** Has a deep understanding of an artist's nature and "rolls with the punches" as situations arise or change from show to show and artist to artist to better serve the artist, teammates and management.
- **"Say what you'll do then do what you say!"** Integrity in thought, word and deed is an essential key to the smooth operation of any production and vital to the success of any business.
- **"The learning process never ends."** Always willing to pass on the benefit of his experience without being condescending and never afraid to ask pertinent questions or to say, "Can you show me what you expect of me?" and do it exactly that way.
- **"The mark of a great engineer is not how good it sounds when everything is working. It's how great it still sounds when it all goes to hell..."**
